EXPERIENCE

Techstyle, Los Angeles CA —
Digital Designer, Growth
2016 - 2023

Revitalized performance marketing eCommerce funnels through a comprehensive redesign, integrating automated features and refining lead registrations and checkout processes. This initiative yielded a remarkable 30% surge in new customer conversions. **Actively engaged** with the product team throughout the project lifecycle, contributing to wireframing, prototyping, and design activities. **Conducted** extensive A/B testing and iterative experimentation to optimize performance across the e-commerce pipeline. **Presented** insightful research findings and test outcomes to guide strategic decision-making and roadmap planning for growth initiatives. **Spearheaded** the development and supervision of dynamic automated advertising sets, swiftly propelling them to become the top-spending and most effective catalog-driven campaigns.

Sony Pictures, Los Angeles CA —
Graphic Designer, Marketing
2014 - 2016

Designed marketing digital worldwide campaigns from concept to completion, meeting strict film or television premiere deadlines and maintaining high brand standards. These initiatives helped set milestones for several film release box office records. **Evaluated** lift study measurements for campaign design and testing on upcoming films. **Iterated** on and improved the design of campaign assets based on weekly reports and media KPI metrics to improve tracking.
